Think outside the box.
Thinking outside the box is a critical Personal Skill- one that will make the difference between success or failure. The real critical leadership skill is accessing the thinking of others to help see what possibilities lie outside the box – outside the individual world of thoughts and beliefs and biases.

We are here for you during these uncertain times. We’ve helped members set up virtual meetings and events such as virtual tutorials. If you have an idea to share or need help getting creative contact the GHC at 254.666.1200 or you can email Kacie@hewittchamber.com
